SUMMARY

Software Developer with 3+ years of experience building scalable web applications using PHP and Laravel. Skilled in developing RESTful APIs, optimizing database performance, and maintaining legacy systems. Experienced in integrating third-party services and improving application scalability through clean, maintainable code. Passionate about writing efficient, well-structured solutions and continuously learning modern backend technologies.

WORK EXPERIENCES

PHP Developer

PupaClic Technologies | 2022 - present

- Developed and maintained scalable web applications using PHP and Laravel.
- Built and consumed RESTful APIs for internal and third-party integrations.
- Refactored legacy codebases to improve performance, maintainability, and scalability.
- Designed and optimized MySQL database schemas for faster query execution.
- Collaborated with QA teams for unit testing, debugging, and post-production issue resolution.

PHP Developer

Webilesk Infotech | Jan 2022 - Oct 2022

- Integrated REST APIs to enhance application functionality and automate business workflows.
- Improved application performance through query optimization and code refactoring.
- Developed dynamic web pages using PHP, HTML, CSS, and JavaScript.

PROFESSIONAL EXPERIENCE PROJECTS
